1. Introduction/ Interviewer Instructions

Interview Purpose

This interview guide assesses Manila Manufacturing Corporation's (MMC) current operations, challenges, technology awareness, readiness, and available skills to adopt emerging technologies. The information gathered from the interview will be used to help improve capabilities and support MMC in adopting emerging technologies more effectively

Instruction for Interviewer

1. Explain the purpose of the interview and introduce yourself.
2. Inform the interviewee that the discussion will focus on MMC's current state and adoption of emerging technology.
3. Explain carefully that the honest and accurate results will help MMC assess its technology needs.
4. Remain neutral. Avoid influencing the interviewee's answers.
5. Ask permission before discussing any confidential and sensitive company information.

2. Interviewee Information

Interviewee Name: _____

Position/Job Title: _____

Department: _____

Email Address: _____

Contact number: _____

3. Background and Current State

Question 1.

Describe your department's daily operations and responsibilities:

Probe: Tell me which activities require the most time and effort?

Question 2.

What are the noticeable challenges that MMC is currently facing?

Probe: How do these challenges affect MMC's productivity and efficiency?

Question 3.

What digital systems or technologies is MMC currently using to support its operations?

Probe: How effective are these technologies in addressing MMC's current needs?

Question 4.

In the current business process. Which process do you think needs the most improvement?

Probe: Do you think these processes should be prioritized? Why?

Question 5.

What challenges and limitations do employees experience with the current systems or technologies?

4. Technology Awareness and Readiness

Question 6.

How familiar are you with emerging technologies?

Question 7.

What are the expectations of MMC from adopting emerging technology?

Probe: How would these technologies affect MMC's operational goals?

Question 8.

What are the factors that would affect MMC's decision to adopt emerging technology?

Probe: Which of these factors is the most important?

Question 9.

What do you think are the benefits that MMC will gain by adopting emerging technologies?

Probe: Which benefit is the most important?

Question 10.

What are the concerns that could prevent MMC from adopting emerging technologies?

Probe: How these concern can be addressed?

Question 11.

Which emerging technologies have you heard about or considered for use at MMC?

Probe: What made you interested in these technologies?

Question 12.

How would you describe the readiness of MMC's current situation to adopt emerging technology?

Probe: What factor contributes to this level of readiness?

5. Industry and Business Impact**Question 13.**

How can the technologies change the perspectives of the manufacturing industry like MMC?

Probe: How do these changes affect MMC's perspective?

Question 14.

How could emerging technologies help MMC to improve its position in industry?

Question 15.

What would make the MMC adoption of emerging technologies successful?

Probe: What would you consider a successful outcome?

6. Emerging Technology Applications

Question 16.

How can Artificial Intelligence (AI) be applied to MMC's current operations?

Probe: Which process could benefit most from AI? Why?

Question 17.

How can Artificial Intelligence be applied to MMC's current operations?

Probe: Which process could benefit most from AI? Why?

Question 18.

How can Machine Learning be used in MMC's current operations and decision-making?

Probe: What type of patterns and information can MMC gain from the existing data?

Question 19.

How can Augmented Reality be used in the MMC manufacturing and workplace activities?

Probe: How could AR improve operational activities like training and maintenance?

Question 20.

How do you think Quantum Computing could be used in MMC's current operations?

Probe: Which process could benefit most from Quantum Computing? Why?

Question 21.

How do you think Quantum Computing could be used in MMC's current operations?

Probe: Which process could benefit most from Quantum Computing? Why?

7. Skills, Training, and Resources

Question 22.

What skills does MMC have that could support the adoption of emerging technologies?

Probe: What other skills does MMC need to add?

Question 23.

What type of training does employees need before adopting emerging technologies?

Probe: How MMC can prepare its employee before implementing emerging technologies?

8. Closing

Question 24.

Based on our discussion, what are the technological improvements that MMC needs to prioritize?

Probe: Why would that need to be the first priority?

Question 25.

Is there anything about MMC operation that you would like to share?
